

January 6, 2026

Dear Jiaming:

Congratulations on receiving a Lorry I. Lokey Interdisciplinary Science Initiative Dissertation Fellowship! This fellowship is conferred by the Division of Graduate Studies through the generous philanthropy of Mr. Lorry I. Lokey, a distinguished and longstanding benefactor of the University of Oregon.

You were selected by your department to receive this award, reflecting the faculty's strong confidence in your scholarship and their commitment to supporting your research.

The Division will fund your GE appointment for Winter 2026 to allow you to focus on your dissertation research without a work commitment. We wish you much energy, focus, and creativity as you work on your dissertation.

If you have any questions about the funds, please contact me at any time. Please remember to visit the [Division of Graduate Studies website](#) to learn more about the array of funding, research, and academic support we provide to all graduate students.

Thank you,

Krista
